INDIANAPOLIS TRAGEDY!

A German Saloon-keeper Decapitates His Wife With a Razor and Then Kills Himself.

INDIANAPOLIS, Ind., May 15.—John Schroeder, a German saloon-keeper, thirty-seven years old, horrified the city by the murder of his wife under peculiarly attrocious circumstances, this morning. Mrs. Schroeder, carrying a nine-months-old baby, at an early hour, went into the bar-room where her husband was opening for the day. Apparently in a fit of insanity he sprang upon her and almost severed her head from her body with a razor.

The woman fell to the floor and died instantly, the blood almost drowning her child. Schroeder ran to the commons near by, knelt down and killed himself with the razor used on his wife. There was heriditary insanity in the family. Schroeder was well to do.

THAT LOAN AGAIN.

The German Savings Bank Will Probably Furnish the Money.

INDIANAPOLIS, Ind., May 15.—Treasurer Lemcke yesterday received the following telegram in regard to the state loan:

Bissinger says he has just written you inclosing opinion of deputy attorney general, saying there can be no objection to savings bank buying the bonds, under act of March 11, 1889. Bank has called meeting of board for Saturday.
WINSLOW, LANIER & Co.

Captain Lemcke still firmly believes that the bonds will be accepted, and adheres to this, because the bank, with the authority it has now received, can now do nothing else but carry out its part of the contract.

REFORM AT HAND!

Mayor Harding Issues His Proclamation to the People—Breweries and Road Houses in the Soup.

The first annual message of Mayor Harding, printed in full elsewhere, is admirable in tone and has about it an air of earnestness which indicates that the new chief executive means just what he says, and what he says is exactly right. Everywhere it is approved and his determination to enforce the laws regulating the liquor traffic is applauded to the echo, irrespective of party feeling.

Mr. Harding is starting out right and if he perseveres and succeeds in his grand work, he will find the best people of the city of Fort Wayne standing solidly with him in the demand for reforms all along the line.

He will not convene the new police commissioners before Monday, but it is fair to presume they will sustain his proposed reforms to a man.

There is the usual talk with some Sabbath breakers that cigar stores must close, street cars stop and so on, but the people aro in no temper for retaliation of this sort.

THE MAYOR'S PROCLAMATION.

Mayor Harding this afternoon sent to THE SENTINEL this proclamation promised in his address last night:

To The Citizens of Fort Wayne and all Others Whom It May Concern:

I, Daniel L. Harding, mayor of the city of Fort Wayne, have this day given the following orders to the chief of police and city marshal of said city and I hereby call on all good citizens, including saloon-keepers, to help them enforce the same:

To Hugh M. Diehl, Chief of Police, and H. C. Franke, City Marshal:

It has been called to my attention, as mayor of the city of Fort Wayne, that the laws of the state of Indiana and ordinances of said city in respect to the sale of intoxicating liquors on the first day of the week, commonly called Sunday; also the laws in respect to keeping of gambling houses, gambling and other laws of said state have been and are openly violated. I now call your attention to the laws of the state and ordinances of the city defining public offences and prescribing the punishment therefor.

Now, therefore, by virture of the power vested in me as mayor of the city of Fort Wayne, under the law, of said state and the ordinances of said city, you are hereby ordered to enforce said laws and all other laws of said state and city for the good order of this community, and to arrest on sight, and to hold in custody and have brought before the proper court for trial all persons violating said laws or ordinances within *my jurisdiction* without fear, favor or partiality. DANIEL L. HARDING,
Mayor of the City of Fort Wayne.

CHIEF DIEHL LIKES IT.

Chief of Police Diehl said to Mayor Harding yesterday that he had decided not to resign and as the mayor and new commissioners are all friendly to him, Mr. Diehl will remain in charge of the night force.

"I like the mayor's message," said Captain Diehl last night, "and I propose to enforce his instructions to the letter. I will see to it that all the saloons close at night and I suppose the marshal will do as much during the day. There *is* to be no sham about the enforcement of the laws and there will be no favoritism. We have learned a lesson and propose to profit by it."

BREWERIES AND ROAD HOUSES ON THE LIST.

"How far does the jurisdiction of the city extend beyond its limits?" asked Mayor Harding of City Attorney Colerick this afternoon.

"In matters of health, morals and peace it extends two miles from the city limits," said the attorney.

"Then I shall serve notice on the breweries and road houses within two miles of the city, and they must observe the laws with that uniform honesty I have decreed for the city."

THE OLIVER HOUSE TO CLOSE.

This morning after reading Mr. Harding's address, Mike Wickliffe called at the mayor's office for information and received it frankly.

"Do you intend to enforce the new departure in refusing to accept bail for arrests made at night," asked Mr. Wickliffe.

"I certainly do," said his honor.

"Then if our people were to be arrested Saturday night, they must remain imprisoned until Monday morning?" continued Mr. Wickliffe.

"Exactly," said his honor.

"Then," said Mr. Wickliffe, "I will not have a girl in my house inside of two days. I'll quit."

THE LICENSE QUESTION.

Mayor Harding has asked Attorney Colerick if he can refuse to license concert saloons and low dives where minors congregate. The attorney is at work on the question.

The mayor will also be asked to prosecute a half-dozen men now selling liquor without a license.

A BAD PRINTER.

He Steals a Gold Watch and Chain and $48 in Money.

Mr. Henry Dierstien, who rooms on West Main street, over Mrs. Hall's millinery store, mourns the loss of a gold watch and chain and $48 in cash.

The thief is a printer, named DeWort, who has been working on the *Morning Gazette*. The fellow has had rooms at the same place and this morning, before Dierstien arose from his night's sleep, the printer entered his room and got off with the above plunder.

Brother Robert Hanna.

Resolutions of condolence by Phœnix lodge No. 101, K. of P.

Whereas, It has pleased the Supreme Ruler of the universe to remove from our midist our friend and brother, Robert Hanna. Therefore be it

Resolved, That in this dispensation of Divine Providence, we humbly bow in meek submission, saying: Thy will, not ours, be done. In this we lose a faithful friend and brother, he was always true and courteous to his friends and especially was he devoted to his fraternal vows, clinging closely to his brother knights until his eyes closed upon this world and his spirit took its flight to the God who gave it.

Resolved, That we hereby extend our most sincere and heartfelt sympathy to those who mourn his loss and shed tears of sorrow not from kinship, but from having learned to love him as a true devoted friend; and we also extend to his only brother, if he be living, and if dead, hope and trust that he, with our beloved brother, joined their father and mother in the sweet beyond, where they will sing eternally their songs of love.

Resolved, That the charter of his lodge be draped in mourning for the period of thirty days, and that a copy of these resolutions be presented to those who so deeply mourn his loss as a friend, with an expression of our sympathy, and that these resolutions be spread on the records of our lodge.

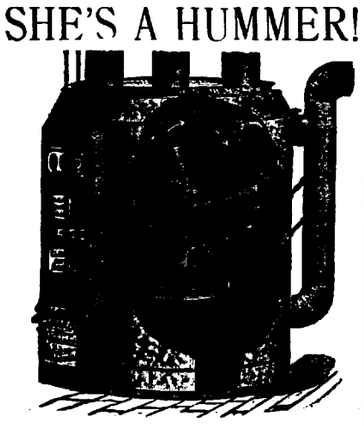
SHE'S A HUMMER!



The above cut represents the HOWARD FURNACE, which obtains by its construction, advantages over all others. It is the most Scientific, Practical and Simple heater yet produced. It has the largest radiating surface, wherein the heat is circulated around and contained in the furnace instead of passing directly into the chimney. This furnace does not burn over one ton of coal a month in the coldest weather and in some instances less. This furnace will also heat by means of hot water, thereby reaching distant rooms where hot air cannot. It is low down and can be set in the lowest cellar and still allow hot air pipes to be taken from the top instead of the side of the casting as in all other furnaces.

REFORM PROCLAIMED.

Mayor Harding Will Enforce the Laws—Saloons to Close, the Bail Fake Abolished—The New Officers and Important Proceedings

There was a vast throng at the council chamber last night and hundreds could not get in. When Mayor Harding emerged from his room he was generously applauded, and in a business-like way proceeded to business.

Clerk Rockhill proceeded after this fashion and announced:

THE MAYOR'S ADDRESS.

GENTLEMEN OF THE COMMON COUNCIL: In accordance with an established custom, one that has been followed by my predecessors, I now address you, this, the first time of my presiding over your honorable body; but before continuing, I will here, in this public manner, thank the voters of our city, who, irrespective of party, gave me their suffrages one week ago to-day, thereby elevating me to my present honorable position.

As the finances of every corporation are one of the most important matters to be looked into, I will commence by calling your attention to the absolute necessity of economy in all your acts. I believe, and I think I voice your sentiments, gentlemen, when I say that the affairs of a city can and ought to be conducted on business principles, and as one of ourselves would do in our own matters.

My knowledge of the finances of the city is just now necessarily limited, but the fact does stare us in the face that in order to meet current and necessary expenses the levy or assessment, either one, has got to be raised. This fact was so apparent before my election that the proper officers were instructed as to the matter; economy, therefore, has to be pursued and from time to time, as necessity may arise, you will hear further from me in this matter.

While in favor of public improvements, particularly permanent ones, I would advise always a careful inquiry into the fact of whether they are absolutely necessary at this time or not, so that we may not enter into any needless expenditures.

I would advise the devising of some means whereby we can commence a gradual improvement of all our streets, not so as to make it a burden, and where it is done make it substantial and permanent. I would advise the finishing of our water works system as contemplated by our original plans, that were repeatedly approved by our people.

I would advise the completion of our reservoir as originally intended at as early a date as possible, so that in case of any derangement of our machinery we may not be without a supply of water. It is also my opinion, grounded on experience, that the growth of our manufacturing interests require larger mains in some places than there are now. One instance of this is on Broadway. A six-inch main was called for on that thoroughfare by the original plan. Then there was no manufactories on that street. We now have the extensive works of the Fort Wayne Jenney electric light and Mr. Louis Rastetter. The main there, to afford the proper protection to these industries, at least as far as the crossing of the Pittsburg, Fort Wayne and Chicago railway, ought not to be less than ten inches. This is only one instance out of many. I think by proper management these finishing touches can be done from the income of the water, without any help from the general fund of the city.

Our system of sewerage has been quite freely extended during the past two years, at quite an expense to our city and citizens; in some cases that have come to my knowledge, very burdensome to the individual. I hope they have been carried out with a view to a complete and perfect system and not at a hap-hazzard, as some of our sewers were built in former times. In this connection I would recommend thorough inquiry into the needs and wants of the community, and build only those that are absolutely necessary.

Our system of street lights, I am happy to say, are unexceptionally fine, and from my own observation in extensive traveling, will say that we have one of the best lighted cities on the continent.

The fact of our needing a new city hall is apparent to every one, but still following out the rule of business principles heretofore touched on, I would not recommend action in this matter, till our fund is at least nearly adequate to its erection.

Public parks are an ornament to any city and if properly cared for are things of beauty and joys forever. I am happy to say from my own observation that our parks are beginning to show good results from the expenditures, under the management of the present efficient chairman, Mr. Halber. I think the few dollars expended in beautifying these resorts are well spent, as good parks in my opinion are preventatives of crime, by giving our people somewhere to spend a quiet hour with their families.

There is an important matter that I wish to call your attention to, one that needs redress and I would recommend your honorable body to take action at the earliest moment praticable. It is this, from time to time we are visited by itinerant clothing men, dry goods men and jewelry men, who come here, hire a store for a week or month as the case may be, and by extensive advertising gull our people into buying their worthless wares to the great injury of our own merchants, who pay their taxes freely and help build up our city. This is a crying injustice and needs remedy at your hands, so that these itinerants will be made to stand their share at least of our city expense.

Our present efficient secretary of the board of public health has done us some effective service and we hope he will continue in his good work.

I would recommend that this council act in harmony with our water works trustees in their endeavor to carry out the completion of the system as touched on in a previous part of this address.

There is another matter that will engage our attention, that is, the furnishing our city with natural gas. In the next few months there will be perhaps thousands of dollars expended in piping our city for that purpose, during which time matters and questions may arise that will have to be passed on by this council. In order to do this intelligently I have appointed a committee on natural gas, to whom all such questions may be referred, and I ask the council to concur in my action.

Your honorable body has a duty to perform this evening, one of which is of the greatest and utmost importance, that is the selection of police commissioners. I would ask you, gentlemen, to be careful in your choice. Elect those amongst you whom you honestly believe will help to carry out the reforms needed in that branch of our service; those who will work in harmony with me as their chairman, and lastly, those who will know neither fear nor favor.

Our fire department so far as I know is efficient. Select this evening good fire commissioners, those whom you can all trust and in whose recommendations from time to time you will have entire confidence.

Finally, I ask each one of you gentlemen to support me to the best of your ability and by every means in your power in carrying out the trust committed to my keeping. You all know the difficulties attending it, more so in my case than perhaps any of my predecessors, and before closing these remarks I will define my position "pro bono publico." During the late contest all kinds of stories were afloat as to what I was, what I am and what I should do. Since the election I have been asked, "What is your position going to be?" To all these questions I answered that it would be known at the proper time.

I think that the time is now at hand. Gentlemen and fellow citizens, I am going to uphold the law in every particular without fear or favor. I believe in being fair, have always been fair and don't want to take advantage of anyone without warning.

I, therefore, now give warning so that the people by their acts may avoid arrest, and I will in future instruct the police not to take bail except in extreme cases, and then good judgment must be exercised; otherwise culprits will have to remain till their trial is had in a proper and lawful manner.

My position as to the saloons has also been questioned. It is the same as the other, live up to the law. If the law don't suit the people, their legislature can change them. I can not. I remember some of my best friends among the saloon keepers. They are men, they are law-abiding, they are tax-payers; all they want is impartiality. They say to me, "If you shut me up shut up my competitors." That is my position exactly; impartially I am going to do it. This week my proclamation will be issued, and in it I will call on all good citizens, especially saloon keepers, to aid me in carrying it out, and if they see any police officer or marshal pass by one that is open back or front, report to me who that officer is and I will see that proper action is taken in the premises.

With "charity toward all and malice toward none," that is my position and by God's help and your help, gentlemen, I will fight it out and on that line if it takes all summer.

I am satisfied that Cancer is hereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be cut out. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family. I took Swift's Specific, which, from the first day, forced out the poison, and continued its use until I had taken several bottles, when I found myself well. I know that S. S. S. cured me.

I have the satisfaction of acknowledging that I have received the greatest benefit from its use; that it is all it has been represented to be, and I recommend it to all who may be suffering from the same complaint I was. I have used Hoptonic repeatedly in my practice, and I am free to say that in every case with the most happy results."

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

WEDNESDAY, MAY 15, 1889.

THE DAY'S BUDGET.

Personal News and Local Gossip as It is Gathered From the Busy Centers, Told Briefly.

This is a week of pay days.

Friday is Pittsburg pay day.

The Wabash pay their employes to-morrow.

There is talk of removing the car works from Lafayette.

The Olds wagon and wheel works paid their employes to-day.

Master Mechanic G. L. Potter, of the Pittsburg shops, went east last night.

The conductors and brakemen of the Pittsburg road appeared to-day in their new uniforms.

Edward Murphy, roadmaster of the Nickel Plate, is again confined to his house dangerously ill.

Paymaster Sullivan, of the Grand Rapids and Indiana road, went south with the pay car yesterday.

Next Sunday the Grand Rapids will put a new time card into effect and put on their through summer trains between Cincinnati and Mackinaw.

The Wabash machine shops closed at noon to enable the men to attend the funeral of Mrs. Tower. Her father is an employe of that department.

Jack Perry, formerly an engineer on the Richmond road, but now proprietor of the Sherman house at Findlay, was robbed of $625 the other night.

John Seidel and Charles Zimmerman, of the Kerr Murray works, are at New Albany, Ind., superintending the erection of a new gas plant for the company.

Peter Grabner, for many years a passenger engineer on the Pittsburg road, is confined to his farm home in Jackson township with consumption and is very ill.

The Pittsburg machine shops closed down this afternoon to enable the employes to attend the funeral of Mrs. A. M. Tower, whose husband is a machinist at the establishment.

Gus Schantz, passenger agent of the Deleware and Cleveland Steamboat Navigation company, is in the city, circulating among railroad men and advertising his company.

The floral tribute that the Pittsburg machine department sent to the funeral of Mrs. A. M. Tower was a handsome one. It was a large pillow and had the work "Mamma" set in flowers.

Joe Heit, clerk in the treasurer's office of the Olds wheel works, paid out $16,000 this month to the men in that establishment. This is their usual pay day disbursement. The firm has 500 employes.

The Grand Rapids and Indiana road are distributing 75,000 copies of a very handsomely gotten up pamphlet, descriptive of the northern resorts. The illustrations are artistic and the literary matter is well written and from the pen of Passenger Agent Lockwood.

The part of Mayor Harding's message relating to the closing of the saloons on Sunday, provokes considerable discussion among the shop men. However it may be looked upon, there is one thing certain, and that is it will save some of the men in the shops lots of money every month.

The stockholders of the new consolidated company, the American Midland road, hold a meeting at the Joy house, Findlay, to-day, to consider the matter of issuing first mortgage bonds, to bond the road, and secure funds to pay off its present indebtedness and to finish the line to Fort Wayne, and also an east branch from Findley.

A vote is to be had at Wabash, soon, on the question of aid for a proposed railroad ten miles in length from that city to Laketon, to connect with the Chicago and Atlantic railway. It is to be run as a part of the Wabash system. If it is built, Wabash trains will be run solid from Chicago to Toledo, and the Wabash shops at Andrews would doubtless receive quite a boom, as that city would then be the division point for not only the main line but the Chicago line.

Passenger Agent R. G. Thompson, of the Wabash, is at Chicago to-day witnessing the sale of the Wabash road, which took place from the door of the court house in that city at noon. Dick took along with him a little over $200,000 in cash, and if that is not sufficient to bid in the road his assistant, R. F. Douglass, will telegraph him the balance. Dick will return with the ownership of the road or see that it gets into good hands. He is wedded to the Wabash and nobody knows how to work for it better than he does.

Don't Get Caught.

This spring with your blood full of impurities, your digestion impaired, your appetite poor, kidneys and liver torpid and whole system liable to be prostrated by disease, but get yourself into good condition, and ready for changing and warmer weather, by taking Hood's Sarsaparilla. It stands unequalled for purifying the blood, giving an appetite and for a general spring medicine.

"One of the greatest impositions heard of in many a day was practiced upon a prominent Brooklyn gentleman a few days ago. 'I have been an invalid for some time,' said he, 'and about the only relief I could get from intense pain was by the frequent use of Pond's Extract. I sent my little girl for a bottle of the Extract. She returned with a large and elaborate bottle with a glass stopper, holding fully a pint, containing a cheap imitation. I sent it back, stating that I ordered Pond's Extract. Back it came to me again with this note: 'This is the same as Pond's Extract only it is cheaper.' After sending a third time I succeeded in getting a bottle of Pond's Extract. Why can a man not buy what he asks for? I know from personal experience, and that of others, that the substituted article has small value as a remedy, and the substitution of it by unscrupulous dealers for Pond's Extract is an outrage and a fraud.'"

Three days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert, of New Brunswick, Ill.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day; and would insist on every one who is afflicted with that terrible disease, to use Chamberlain's Pain Balm and get well at once. For sale by George H. Loesch.

Catarrh Cured.

A clergyman, after years of suffering from that loathsome disease, Catarrh, and vainly trying every known remedy, at last found a recipe which completely cured and saved him from death. Any sufferer from this dreadful disease sending a self addressed stamped envelope to Prof. J. A. Lawrence, 88 Warren St., New York City, will receive the recipe ree of charge. O13deod4m-weow15t

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Jan-27-1y

Rome City for 1889—Excursion Season.

An elegant new station house, capable of protecting fifteen hundred people from sun or rain. The island has been improved, sleeping rooms overhauled, buildings painted, new restaurant and dance hall erected. All the old buildings have been painted, and with two dance halls, enlarged restaurant, with twenty-five new clinker boats added to the already large fleet there, makes Rome City the most attractive, cleanest and best resort for picnics or excursion parties in Indiana.

The lake is large; nicely wooded banks surround it, clean gravel or sand shores; no black muck or wild grass to prevent the landing of row boats at almost any point desired; while those desiring to view the beautiful waters, without partaking of the pleasure of boat-riding, can do so seated upon the lake's beautiful banks, nicely shaded, thus avoiding the hot rays of the burning sun.

INDIANAPOLIS TRAGEDY!

A German Saloon-Keeper Decapitates His Wife With a Razor and Then Kills Himself.

INDIANAPOLIS, Ind., May 15.—John Schroeder, a German saloon-keeper, thirty-seven years old, horrified the city by the murder of his wife under peculiarly atrocious circumstances, this morning. Mrs. Schroeder, carrying a nine-months-old baby, at an early hour, went into the bar-room where her husband was opening for the day. Apparently in a fit of insanity he sprang upon her and almost severed her head from her body with a razor.

The woman fell to the floor and died instantly, the blood almost drowning her child. Schroeder ran to the commons near by, knelt down and killed himself with the razor used on his wife. There was hereditary insanity in the family. Schroeder was well to do.

THAT LOAN AGAIN.

The German Savings Bank Will Probably Furnish the Money.

INDIANAPOLIS, Ind., May 15.—Treasurer Lemcke yesterday received the following telegram in regard to the state loan:

BISSINGER says he has just written you inclosing opinion of deputy attorney general, saying there can be no objection to savings bank buying the bonds, under act of March 11, 1889. Bank has called meeting of board for Saturday.

WINSLOW, LANIER & Co.

Captain Lemcke still firmly believes that the bonds will be accepted, and adheres to this, because the bank, with the authority it has now received, can now do nothing else but carry out its part of the contract.

The Missing Doctor.

CHICAGO, May 15.—Dr. Cronin's friends have decided to drag Lake Michigan for the body of the missing doctor, who they so persistantly declare has been murdered. The work began this morning.

MONTREAL, May 15.—Many leading Irishmen here believe that Cronin sailed from this city by the last out-going Allen steamer, for Glasgow.

New Regime at Richmond.

RICHMOND, Ind., May 15.—The council organized last night under Mayor Thistlethwaite, electing E. M. Goodwin, wood measurer; John Paxton, market master; J. F. Davenport, street commissioner; John F. REFORM AT HAND!

Mayor Harding Issues His Proclamation to the People—Breweries and Road Houses in the Soup.

The first annual message of Mayor Harding, printed in full elsewhere, is admirable in tone and has about it an air of earnestness which indicates that the new chief executive means just what he says, and what he says is exactly right. Everywhere it is approved and his determination to enforce the laws regulating the liquor traffic is applauded to the echo, irrespective of party lending.

Mr. Harding is starting out right and if he perseveres and succeeds in his grand work, he will find the best people of the city of Fort Wayne standing solidly with him in the demand for reforms all along the line.

He will not convene the new police commissioners before Monday, but it is fair to presume they will sustain his proposed reforms to a man.

There is the usual talk with some Sabbath breakers that cigar stores must close, street cars stop and so on, but the people are in no temper for retaliation of this sort.

THE MAYOR'S PROCLAMATION.

Mayor Harding this afternoon sent to THE SENTINEL this proclamation promised in his address last night:

To The Citizens of Fort Wayne and all Others Whom It May Concern:

I, Daniel L. Harding, mayor of the city of Fort Wayne, have this day given the following orders to the chief of police and city marshal of said city and I hereby call on all good citizens, including saloon-keepers, to help them enforce the same:

To Hugh M. Diehl, Chief of Police, and H. C. Franke, City Marshal:

It has been called to my attention, as mayor of the city of Fort Wayne, that the laws of the state of Indiana and ordinances of said city in respect to the sale of intoxicating liquors on the first day of the week, commonly called Sunday; also the laws in respect to keeping of gambling houses, gambling and other laws of said state have been and are openly violated. I now call your attention to the laws of the state and ordinances of the city defining public offenses and prescribing the punishment therefor.

Now, therefore, by virtue of the power vested in me as mayor of the city of Fort Wayne, under the law, of said state and the ordinances of said city, you are hereby ordered to enforce said laws and all other laws of said state and city for the good order of this community, and to arrest on sight, and to hold in custody and have brought before the proper court for trial all persons violating said laws or ordinances within my *jurisdiction* without fear, favor or partiality. DANIEL L. HARDING,
Mayor of the City of Fort Wayne.

CHIEF DIEHL TAKES IT.

Chief of Police Diehl said to Mayor Harding yesterday that he had decided not to resign and as the mayor and new commissioners are all friendly to him, Mr. Diehl will remain in charge of the night force.

"I like the mayor's message," said Captain Diehl last night, "and I propose to enforce his instructions to the letter. I will see to it that all the saloons close at night and I suppose the marshal will do as much during the day. There is to be no sham about the enforcement of the laws and there will be no favoritism. We have learned a lesson and propose to profit by it."

BREWERIES AND ROAD HOUSES ON THE OUT.

"How far does the jurisdiction of the city extend beyond its limits?" asked Mayor Harding of City Attorney Colerick this afternoon.

"In matters of health, morals and peace it extends two miles from the city limits," said the attorney.

"Then I shall serve notice on the breweries and road houses within two miles of the city, and they must observe the laws with that uniform honesty I have decreed for the city."

THE OLIVER HOUSE TO CLOSE.

This morning after reading Mr. Harding's address, Mike Wickliffe called at the mayor's office for information and received it frankly.

"Do you intend to enforce the new departure in refusing to accept bail for arrests made at night," asked Mr. Wickliffe.

"I certainly do," said his honor.

"Then if our people were to be arrested Saturday night, they must remain imprisoned until Monday morning?" continued Mr. Wickliffe.

"Exactly," said his honor.

"Then," said Mr. Wickliffe, "I will not have a girl in my house inside of two days. I'll quit."

THE LICENSE QUESTION.

Mayor Harding has asked Attorney Colerick if he can refuse to license concert saloons and low dives where minors congregate. The attorney is at work on the question.

The mayor will also be asked to prosecute a half-dozen men now selling liquor without a license.

A BAD PRINTER.

He Steals a Gold Watch and Chain and $48 in Money.

Mr. Henry Dierstien, who rooms on West Main street, over Mrs. Hull's millinery store, mourns the loss of a gold watch and chain and $48 in cash.

The thief is a printer, named DeWork, who has been working on the *Morning Gazette*. The fellow has had rooms at the same place and this morning, before Dierstien arose from his night's sleep, the printer entered his room and got off with the above plunder.

Whereas, It has pleased the Supreme Ruler of the universe to remove from our midst our friend and brother, Robert Hanna. Therefore be it

Resolved, That we hereby extend our most sincere and heartfelt sympathy to those who mourn his loss and shed tears of sorrow not from kinship, but from having learned to love him as a true devoted friend; and we also extend to his only brother, if he be living, and if dead, hope and trust that he, with our beloved brother, joined their father and mother in the sweet beyond, where they will sing eternally their songs of love.

Resolved, That the charter of his lodge be draped in mourning for the period of thirty days, and that a copy of these resolutions be presented to those who so deeply mourn his loss as a friend, with an expression of our sympathy, and that these resolutions be spread on the records of our lodge.

THE MAYOR'S ADDRESS.

GENTLEMEN OF THE COMMON COUNCIL: In accordance with an established custom, one that has been followed by my predecessors, I now address you, this the first time of my presiding over your honorable body; but before continuing, I will here, in this public manner, thank the voters of my city, who, irrespective of party, gave me their suffrages one week ago to-day, thereby elevating me to my present honorable position.

As the finances of every corporation are one of the most important matters to be looked into, I will commence by calling your attention to the absolute necessity of economy in all your acts. I believe, and I think I voice your sentiments, gentlemen, when I say that the business of a city can and ought to be conducted on business principles, and as one of ourselves would do in our own matters.

My knowledge of the finances of the city is just now necessarily limited, but the fact is before us in the face that in order to meet current and necessary expenses the levy or assessment, either one, has got to be raised. This fact was so apparent before my election that the proper officers were instructed as to the matter; economy, therefore, has to be practiced and from time to time, as necessity may arise, you will hear further from me in this matter.

Within in matter of public improvements, particularly permanent ones, I would advise always a cash bill inquiry into the fact of whether they are absolutely necessary at this time or not, so that we may not enter into any needless expenditures.

I would also the devising of some means whereby we can commence a gradual improvement of all our streets, not so as to make it a burden, but where it is done make it substantial and permanent. I would advise the establishing of our water works system as contemplated by our original plans, that very repeatedly met approval by our people.

I would advise the completion of our records as originally intended as early as may be possible, so that in case of any derangement of our machinery we may not be without a supply of water. It is also my opinion, gained by experience, that the growth of our manufacturing interests requires larger mains in some places than there are now. A manufacturer is as on Broadway. A six-inch main was called for on that thoroughfare by the original plan. Then there were no manufactories on Broadway. We now have the extensive works of the Fort Wayne Electric Light and Power company. Then letters. The gain there, to afford the proper protection to those industries, at least as far as the premises of the Pittsburgh, Fort Wayne and Chicago railway, ought not to be less than ten inches. This is only one instance out of many. Then by proper management those disturbing troubles can be done from the income of the water, without any help from the general fund of the city.

Our system of sewerage has been quite freely extended during the past two years, at quite an expense to our city and citizens in some cases that have come to my knowledge, very burdensome to the individual. I hope they have been carried out with a view to a complete and perfect system and not as a hap-hazard, as some of our sewers were laid in former times. In this connection I would recommend the thorough inquiry into the needs and wants of the community, and build only those that are absolutely necessary.

Our system of street lights, I am happy to say, are unexceptionable, and from my own observation in extensive traveling, will say that we have one of the best lighted cities on the continent.

The fact of our needing a new city hall is apparent to every one, but still following out the rule of business principles heretofore laid down on, I would not recommend action in this matter, till our fund is at least nearly adequate to its erection.

Public parks are an ornament to any city and if properly cared for are things of beauty and joys forever. I am happy to say from my own observation that our parks are beginning to show good results from the expenditures under the management of the present efficient chairman, Mr. Haller. I think the few dollars expended in beautifying these resorts are well spent. As good parks in my opinion as if everlastingly cried, by giving our people somewhere to spend a quiet hour with their families.

There is an important matter that I wish to call your attention to, that you each and every one and I would recommend your honorable body to take action at the earliest moment practicable. It is this, from time to time I visit many of the itinerant clothing men, dry goods, corn and jewelry men, who come here, hire a store for a week or month as the case may be, and by extensive advertising gull our people into buying their worthless wares to the great injury of our own merchants, who pay their taxes yearly and help build up our city. This is a crying injustice and needs remedy at your hands, so that these itinerants will be made to stand their share at least of our city expense.

Our present efficient secretary of the board of public health has done most effective service and we hope he will continue in his good work.

I would recommend that this council act in harmony with our water works trustees in their endeavor to complete the completion of the system as touched on in a previous part of this address.

There is another matter that will engage our attention, that is, the furnishing our city with natural gas. In the next few months there will be juvenile thousands of dollars expended in piping our city for that purpose, during which time matters and questions may arise that will have to be passed on by this council. In order to do this intelligently I have appointed a committee on natural gas, to whom all such questions may be referred and I ask the council to concur in my action.

Your honorable body has a duty to perform this evening, one of which is of the greatest and utmost importance, that is the selection of police commissioners. I would say, gentlemen, be careful in your choice. Select those only amongst you whom you honestly believe will help to carry out the reforms needed in that branch of our city government, that will act in harmony with us as their chairman, and lastly, those who will know neither fear nor favor.

Our fire department so far as I know is efficient. Select this evening good fire commissioners, those whom you can rely on, and in where recommendations from time to time you will have entire confidence.

Finally, I ask each one of you gentlemen to support me to the best of your ability and by every means in your power in carrying out the reforms required to my keeping. You all know the difficulties attending it, moreso in my case than perhaps any of my predecessors, and believing those reforms I will endeavor by petition "pro bono publico." During the late contest all kinds of stories were afloat as to what I was, what I am and what I should be. Since the election I have been asked, "What is your position going to be?" To all these questions I answered that it would be known at the proper time.

I think that the time is now at hand. Gentlemen and fellow citizens, I am going to uphold the law in every particular without fear or favor. I believe in letting live, and always have felt and will want to take advantage of anyone without warning.

I, therefore, now give warning so that the people by their next time avoid arrest, and I will in future have to request the police not to take bail except in extreme cases, and then good judgment must be exercised, otherwise out go the bail to be rearrested till their trial is had in a proper and lawful manner.

My position as to the saloons has also been questioned. It is the same as the other, live up to the law. If the law don't suit the people, their legislators can change them. I can say, I remember some of my best friends among the saloon keepers. They are such, they are lawabiding, they are taxpayers, and they want a fair impartiality. They say to me, "If you shut me up shut up my competitors." That is my position exactly. I am going to enforce it to the letter. This week my proclamation will be issued, and in it I will call on all good citizens, especially saloon keepers, to aid me in this matter, and that if they see any police officer or marshal pass by case that is open back or front, report to me who that officer is and I will see that proper action is taken in the premises.

With cheerily toward all and matter toward none." That is my position and by God's help and your help, gentlemen, I will fight it out and on that line if it takes all summer.

I am satisfied that Cancer is hereditary in my family. My father died of it, a sister of my mother died of it, and my sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating away for years a sore that it would not heal or cost. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to suffer as the others of the family. I took Swift's Specific, which, from the first day, forced out the poison, and continued its use until I had taken several bottles, when I found myself well. I know Health, S. S. cured me.

Dr. H. I have the satisfaction of acknowledging that I have received the greatest benefit from its use; that it is all it has been represented to be, and I recommend it to all who may be suffering from the same complaint I was. I have used Hoptonic repeatedly in my practice, and I am free to say that in every case with the most happy results."

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only know that the very best health-keeper, life-preservor and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

THE DAY'S BUDGET.

Personal News and Local Gossip as it is Gathered From the Busy Centers, Told Briefly.

This is a week of pay days.

Friday is Pittsburg pay day.

The Wabash pay their employes tomorrow.

There is talk of removing the car works from Lafayette.

The Olds wagon and wheel works paid their employes to-day.

Master Mechanic G. L. Potter, of the Pittsburg shops, went east last night.

The conductors and brakemen of the Pittsburg road appeared to-day in their new uniforms.

Edward Murphy, roadmaster of the Nickel Plate, is again confined to his house dangerously ill.

Paymaster Sullivan, of the Grand Rapids and Indiana road, went south with the pay car yesterday.

Next Sunday the Grand Rapids will put a new time card into effect and put on their through summer trains between Cincinnati and Mackinaw.

The Wabash machine shops closed at noon to enable the men to attend the funeral of Mrs. Tower. Her father is an employe of that department.

Jack Perry, formerly an engineer on the Richmond road, but now proprietor of the Sherman house at Findlay, was robbed of $625 the other night.

John Seidel and Charles Zimmerman, of the Kerr Murray works, are at New Albany, Ind., superintending the erection of a new gas plant for the company.

Peter Grabner, for many years a passenger engineer on the Pittsburg road, is confined to his farm home in Jackson township with consumption and is very ill.

The Pittsburg machine shops closed down this afternoon to enable the employes to attend the funeral of Mrs. A. M. Tower, whose husband is a machinist at the establishment.

Gus Schantz, passenger agent of the Delaware and Cleveland Steamboat Navigation company, is in the city, circulating among railroad men and advertising his company.

The floral tribute that the Pittsburg machine department sent to the funeral of Mrs. A. M. Tower was a handsome one. It was a large pillow and had the work "Mamma" set in flowers.

Joe Holt, clerk in the treasurer's office of the Olds wheel works, paid out $16,000 this month to the men in that establishment. This is their usual pay day disbursement. The firm has 500 employes.

The Grand Rapids and Indiana road are distributing 75,000 copies of a very handsomely gotten up pamphlet, descriptive of the northern resorts. The illustrations are artistic and the literary matter is well written and from the pen of Passenger Agent Lockwood.

The part of Mayor Harding's message relating to the closing of the saloons on Sunday, provokes considerable discussion among the shop men. However it may be looked upon, there is one thing certain, and that is it will save some of the men in the shops lots of money every month.

The stockholders of the new consolidated company, the American Midland road, hold a meeting at the Joy house, Findlay, to-day, to consider the matter of issuing first mortgage bonds, to bond the road, and secure funds to pay off its present indebtedness and to finish the line to Fort Wayne, and also an east branch from Findlay.

A vote is to be had at Wabash, soon, on the question of aid for a proposed railroad ten miles in length from that city to Laketon, to connect with the Chicago and Atlantic railway. It is to be run as a part of the Wabash system. If it is built, Wabash trains will be run solid from Chicago to Toledo, and the Wabash shops at Andrews would doubtless receive quite a boom, as that city would then be the division point for not only the main line but the Chicago line.

Passenger Agent R. G. Thompson, of the Wabash, is at Chicago to-day witnessing the sale of the Wabash road, which took place from the door of the court house in that city at noon. Dick took along with him a little over $200,000 in cash, and if that is not sufficient to bid in the road his assistant, R. F. Douglass, will telegraph him the balance. Dick will return with the ownership of the road or see that it gets into good hands. He is wedded to the Wabash and nobody knows how to work for it better than he does.

Don't Get Caught.

This spring with your blood full of impurities, your digestion impaired, your appetite poor, kidneys and liver torpid and whole system liable to be prostrated by disease, but get yourself into good condition, and ready for changing and warmer weather, by taking Hood's Sarsaparilla. It stands unequalled for purifying the blood, giving an appetite and for a general spring medicine.

Mr. H. H. Robinson, the owner of the Hotel Brunswick, is at Chicago attending the convention of the Hotel Men's Mutual Benefit association which is in session there this week.

For constipation, "liver complaint," or biliousness, sick headache and all diseases arising from a disordered condition of the liver and stomach, take Dr. Pierce's Pleasant Purgative Pellets—a gentle laxative or native cathartic, according to size of dose.

PEACHSTONES are used for fuel in Vallejo, Cal. They bring $6 a ton. The apricot stone does not burn so well and does not bring so good a price.

"One of the greatest impositions heard of in many a day was practiced upon a prominent Brooklyn gentleman a few days ago. 'I have been an invalid for some time,' said he, 'and about the only relief I could get from intense pain was by the frequent use of Pond's Extract. I sent my little girl for a bottle of the Extract. She returned with a large and elaborate bottle with a glass stopper, holding fully a pint, containing a cheap imitation. I sent it back, stating that I ordered Pond's Extract. Back it came to me again with this note: 'This is the same as Pond's Extract only it is cheaper.' After sending a third time I succeeded in getting a bottle of Pond's Extract. Why can a man not buy what he asks for? I know from personal experience, and that of others, that the substituted article has small value as a remedy, and the substitution of it by unscrupulous dealers for Pond's Extract is an outrage and a fraud.'"

Three days is a very short time in which to cure a bad case of rheumatism; but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert, of New Brunswick, Ill.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day, and would insist on every one who is afflicted with that terrible disease, to use Chamberlain's Pain Balm and get well at once. For sale by George H. A MATCHLESS SUIT SALE!

That will create the Wildest Excitement.

It's no "may" or "can" this time, but must. We've got too many Mens' Fine Suits. In fact, to be candid, we're a little afraid we've got a great many more than we need. These suits that should honestly bring $20 to $28, must go for the pitiful sum of $18.

They're the finest suits in our store, and come in every shape of Sack, Frock, Cutaway and Prince Albert, Nobby Traveling, Gay Walking, Splendid Business, Nice Professional and Handsome Dress Suits, made of Cheviots, Tweeds, Cassimeres, Worsteds, Corkscrews, &c., in solid Colors, Stripes, Checks, Mixtures and fashionable combinations. Its an easy thing to quote prices, but all attempts to rival these suits in QUALITY at the price will be an utter failure. We ourselves never offered such fine suits for so paltry a price, and you—NONE of you—ever saw their equal. If you want the best come To-morrow and early.

THIS IS A REGULAR SCREAMER!

For we've just split the prices wide open. Regular $20, $22, $25 and $28 suits for $18, is exactly what we're offering. But one can't always tell from an advertisement whether or not the article is what its advertised to be. A few minutes examination, however, of THESE Suits 'll settle that matter.

We have enough confidence in the good judgment of the people to ask them to call and look at these Suits, and we want you to know that you are at perfect liberty to do so without being under any obligation to buy. There never were such fine suits sold for the money, and that's why we want you all to see 'em

Remember $18 gives you the choice of any suit in our store, no matter what they are marked to sell at, for Thursday, Friday and Saturday only. If you are after something cheaper, see what we can show you at $5, $6, $8, $10, $12 and $15.
